

Pulling Back the Curtain: Analysis of New Government Data on Temporary Protected Status

March 2021

ACKNOWLEDGEMENTS

The Temporary Protected Status Advocacy Working Group (TPS AWG) is a multi-ethnic, multi-organizational working group consisting of state, local, and national organizations advocating on behalf of TPS holders and their families. Led by the Catholic Legal Immigration Network, Inc. (CLINIC), the TPS AWG produces reports, engages in administrative advocacy, and advocates for extension, redesignation, and initial designation for countries whose conditions warrant TPS.

The following TPS AWG Members collaborated on the FOIA request that revealed this key data:

Catholic Legal Immigration Network, Inc. (CLINIC)

Alianza Americas

National Immigration Project of the National Lawyers Guild

National TPS Alliance

The TPS AWG Members that collaborated on the FOIA request would like to thank the litigation team—Khaled Alrabe and Amber Qureshi of the National Immigration Project of the National Lawyers Guild and Michelle Mendez and Vickie Neilson of CLINIC’s Defending Vulnerable Populations Program—who through their efforts secured these disclosures. The original complaint underlying this FOIA may be found [here](#) and the underlying responsive records from the federal government may be found [here](#).

Lora Adams of [Masa Group](#) was the lead author of this report.

I. Executive Summary

This report presents data released by U.S. Citizenship and Immigration Services (USCIS) to provide new data on Temporary Protected Status (TPS) from 2018 through 2020 never before available to the public. The tables breakdown TPS recipients by **age, gender, work authorization, state of residence, country of origin, registration date, and previous immigration status.**

Key takeaways from the data include:

- The majority of TPS holders are **19-50 years old** (Tables 2a through 11b).
- Less than half of all TPS holders (**44.6 percent**) have work authorization in the United States (Table 12).
- More men than women have TPS based on their reported gender, at **56.2 percent** and **43.7 percent** respectively (Table 1).
- Over half of all TPS holders live in four states: **California** (17.95 percent), **Florida** (13.75 percent), **Texas** (12.88 percent), and **New York** (12.33 percent) (Table 13).
- Over **90 percent** (382,109) of all TPS holders are from three countries: **El Salvador** (247,514), **Honduras** (79,334), and **Haiti** (55,261). New TPS designations would potentially benefit **750,000** from El Salvador, **400,000** from Honduras, **100,000** from Haiti (Table 14).
- Nearly **82,000** TPS holders have gone on to obtain a green card (Table 27).
- Nearly **10,000** TPS holders have gone on to obtain U.S. citizenship (Table 27).

II. Background and Methodology

Temporary Protected Status (TPS) provides protection from deportation and permission to work for eligible nationals of countries that have been designated temporarily too dangerous for return. During the time frame for the data in this report, ten countries were designated for TPS: El Salvador, Haiti, Honduras, Nepal, Nicaragua, Somalia, Sudan, South Sudan, Syria, and Yemen. For more information on TPS, see [CLINIC's website](#).

The TPS data included in this report came from two sources. The majority of the tables (Table 1 through Table 26) contain data obtained by TPS AWG through a FOIA request to the U.S. Department of Homeland Security, which was received by the agency on August 27, 2019 and fulfilled by USCIS on November 6, 2020.¹ The majority of the data were displayed in large Microsoft Excel tables, which we then organized into the tables of this report. All percentages were calculated using the existing data in Excel. Notes accompanying the tables below were taken from the same USCIS FOIA release and edited for clarity.² The second data source, informing Table 27, was released to Congress as part of congressional oversight and is available publicly online.

III. Tables

Dates for each table are dependent on when USCIS queried the data, which may lead to slight discrepancies between tables pulled at different times. Each table is accompanied by notes,

¹ Letter from James Holzer, Deputy Chief FOIA Officer, to Jill Marie Bussey, Director of Advocacy, Catholic Legal Immigration Network, Inc. (Sept. 3, 2019), on file with author.

² To download the original records received from USCIS, see <http://bit.ly/TPSFOIAReportData>.

either at the start of the section or below the table itself, detailing all contextual information given by USCIS for that data. It is important to note in particular that the inclusion of a “D” in place of a data point indicates that a count is less than ten and the data was withheld to protect the requestor’s privacy. An “H” is included to redact the second lowest number in a set so that “D” cannot be calculated through deduction, though USCIS applies this rule inconsistently.

A. Demographics

Overall, more men than women have TPS status based on their reported gender, at **56.2 percent** and **43.7 percent** respectively. The disparity is particularly stark for TPS holders from **Nepal, South Sudan, Sudan, and Yemen**, where the difference ranges from roughly **28 to 49 percent**.

Table 1. TPS Holders by Country of Birth and Gender as of October 2, 2018

Country of Birth	Female	Percent Female	Male	Percent Male	Not Reported	Percent Not Reported	Total
El Salvador	105,486	41.93%	145,993	58.03%	88	0.03%	251,567
Haiti	28,349	50.22%	28,073	49.73%	31	0.05%	56,453
Honduras	37,536	46.51%	43,097	53.40%	76	0.09%	80,709
Nepal	5,240	35.95%	9,326	63.99%	9	0.06%	14,575
Nicaragua	2,260	49.93%	2,265	50.04%	1	0.02%	4,526
Somalia	185	39.78%	252	54.19%	28	6.02%	465
South Sudan	23	27.71%	60	72.29%	0	0.00%	83
Sudan	230	28.57%	571	70.93%	4	0.50%	805
Syria	2,883	41.13%	4,120	58.77%	7	0.10%	7,010
Yemen	371	25.32%	1,094	74.68%	0	0.00%	1,465
Total	182,563	43.71%	234,851	56.23%	244	0.06%	417,658

1) The report reflects the most up-to-date data available at the time the report is generated.

2) Cases may have been adjudicated in a later year than the one in which they were received.

3) Individuals have been deduplicated on beneficiary A number, Social Security Number, and a combination of name and date of birth.

4) TPS Holders represent approved individuals who have not had a subsequent denial upon re-registration.

Database Queried: Oct. 2, 2018; Report Created: Oct. 9, 2018; System: C3 Consolidated, ELIS

By: Office of Performance and Quality (OPQ), Performance Analysis and Data Reporting (PAER), BW

Source: USCIS, obtained by CLINIC via FOIA request Nov. 6, 2020.

(Data on file with authors: "TRK_3935_TPS Holders_By COB and Gender")

The following information applies to “Table 2a” through “Table 11b,” detailing the reported age and gender of TPS holders by country of birth:

- 1) The reports reflect the most up-to-date data available at the time the database is queried.
 - 2) Duplicates were removed based on receipt number, A-Number, SSN, and Name-DOB combination.
 - 3) Data include only those individuals that were approved and valid as of Sept. 30 of each fiscal year.
 - 4) An individual is counted as having TPS only when the last request was approved; if it was denied/withdrawn, the individual is removed and not counted.
 - 5) Individuals who naturalized are removed in the fiscal year of the naturalization.
 - 6) The age of the individual is as of Sept. 30 of the end of each fiscal year.
 - 7) Age is reported as entered. Therefore any data entry errors are included.
 - 8) Not available means the data is not available in the electronic systems.
 - 9) D - Count is less than 10 and data withheld to protect requestors' privacy.
- DHS, USCIS, C3 Consolidated, ELIS via SAS, queried June 24, 2019.

Parameters: Form(s): I-821 - Data Type: Approved Individuals listed by fiscal year, country, gender, and age range. - Time Frame: All Time (ending 9/30/2018)
 Source: USCIS, obtained by CLINIC via FOIA request Nov. 6, 2020.

B. TPS Holders by Work Authorization

Though the tables above indicate that most TPS holders are of working age, less than half of all TPS holders (**44.6 percent**) have work authorization in the United States. **South Sudan** (30.67 percent), **Sudan** (24.48 percent), **Nicaragua** (13.27 percent), and **Syria** (a stark 0.11 percent) have especially low rates of work authorization. This may be a byproduct of record USCIS processing delays in recent years.³ It may also be a recognition that many of those who apply for TPS will do so solely for the protection from deportation, even if they are ineligible or unable to apply for a work permit.

Table 12. TPS Holders with Valid Employment Authorization Documents as of June 18, 2018

<i>Country of Citizenship</i>	<i>TPS Holders</i>	<i>Valid EAD</i>	<i>Percent EAD</i>
Yemen	1,455	991	68.11%

Total	416,957	185,981	44.60%

1) The report reflects the most up-to-date data available at the time the report is generated.

2) Duplicates were removed based on receipt number, A-Number, SSN, and Name-DOB combination.

3) Country is based on Country of Citizenship as of application.

4) A TPS beneficiary may choose not to apply for an Employment Authorization Document (EAD).

5) Current TPS Individuals include a total of 58,044 beneficiaries that are legal permanent residents and do not require an EAD to work.

6) Only those EADs classified as TPS (A12 or C19) were included in this query. Individuals may have acquired an EAD through the processing of other benefit requests such as change of status.

7) Valid EADs represent those that have an expiration date of 6/18/2018 or later. However, TPS individuals without a valid EAD may still be authorized to work. As determined by the Federal Register notice, an EAD may be automatically extended for 180 days past the expiration.

8) USCIS recently withdrew TPS status for individuals that have obtained their U.S. Citizenship. Previously, all TPS individuals maintained their status and were included in reports regardless of their citizenship status.

1) The report reflects the most up-to-date data available at the time the report is generated.
2) Duplicates were removed based on receipt number, A-Number, SSN, and Name-DOB combination.
3) Country is based on Country of Citizenship as of application.
4) TPS approvals for Guinea, Liberia, and Sierra Leone are not reported as they have been removed from the designated country list.
5) Counts may include individuals that may have also been approved for legal permanent resident status.
6) Counts include approved individuals regardless of whether their validity date has expired.
7) D - Count is less than 10 and data withheld to protect requestors' privacy.
Database Queried: Nov. 29, 2018; Report Created: Nov. 29, 2018; System: C3 Consolidated, ELIS and CIS via SAS
Office of Performance and Quality (OPQ), Performance Analysis and External Reporting (PAER), DL
Parameters: Form(s): I-821 - Time Frame: All time - Data Type: Approvals

Source: USCIS, obtained by CLINIC via FOIA request Nov. 6, 2020.
(Data on file with authors: "TRK_3935_TPS Holders_By COB and Gender_OPS")

As seen below, over **90 percent** (382,109) of all TPS holders are from three countries: **El Salvador** (247,514), **Honduras** (79,334), and **Haiti** (55,261). Even so, this represents a fraction of those who may ultimately benefit from restoring or redesignating TPS for these countries. New designations would potentially benefit **750,000** from El Salvador, **400,000** from Honduras, **100,000** from Haiti, and many others.⁴

<i>Designated Country</i>	<i>TPS Holders</i>	<i>Percentage</i>
El Salvador	247,514	60.2%
Honduras	79,334	19.3%
Haiti	55,261	13.4%
Nepal	14,543	3.5%

g. South Sudan

TPS holders from South Sudan are spread across 31 states. Each of these states has one to ten TPS holders from South Sudan, but the small numbers have been withheld to protect privacy. An “H” is usually included to redact the second lowest number in a set so that “D” cannot be calculated through deduction. In this case, the numbers for each state may be low enough to calculate them based on the total, so the total has been replaced with an “H.”

j. Yemen

When USCIS released approval data for 2018, it included a table detailing Northern Yemen, though the region has never been individually designated for TPS separate from Yemen as a whole. As the numbers for Northern Yemen are withheld, we can assume that the number of TPS holders from Yemen in Michigan and New York is at most ten people more than the present count. The highest concentration of TPS holders from Yemen resides in **New York** (26.15 percent), followed by **California** (13.38 percent).

D. TPS by Registration Date

The re-registration rates for the most populous TPS groups (**El Salvador, Haiti, and Honduras**) indicate that once provided temporary protection, TPS holders seem to be re-approved relatively consistently, staying current with the government and paying regular fees to re-register.

Table 25. TPS Receipts, Approvals, and Denials by Registration Date from January 20, 2017 and May 7, 2020

Country	Reregistration Start Date	Reregistration End Date	Receipts	Approvals	Percent Approvals	Denials	Percent Denials
El Salvador	Jan. 18, 2018	March 19, 2018	184,851	181,935	98.42%	2,331	1.26%
Haiti	May 24, 2017	July 24, 2017	41,825	40,687	97.28%	1,126	2.69%
Haiti	Jan. 18, 2018	March 19, 2018	28,881	26,389	91.37%	2,264	7.84%
Honduras	Dec. 15, 2017	Feb. 13, 2018	47,427	46,292	97.61%	1,123	2.37%
Honduras	June 5, 2018	Aug. 6, 2018	46,561	43,006	92.36%	2,912	6.25%

Nicaragua	Dec. 15, 2017	Feb. 13, 2018	2,236	2,059	92.08%	90	4.03%
Somalia	Aug. 27, 2018	Oct. 26, 2018	199	143	71.86%	11	5.53%
Somalia	March 11, 2020	May 11, 2020	106	-	-%	-	-%
Sudan	Oct. 11, 2017	Dec. 11, 2017	65	49	75.38%	5	7.69%
South Sudan	April 5, 2019	June 4, 2019	315	299	94.92%	16	5.08%
Syria	March 5, 2018	May 4, 2018	3,441	3,155	91.69%	161	4.68%
Syria	Sept. 23, 2019	Nov. 22, 2019	2,303	2,123	92.18%	43	1.87%
Yemen	Aug. 14, 2018	Oct. 15, 2018	1,128	943	83.60%	109	9.66%
Yemen	March 2, 2020	May 1, 2020	596	66	11.07%	-	0.00%
Total	-	-	369,134	355,949	98.42%	10,345	1.26%

1) Some petitions or applications approved or denied may have been received in previous reporting periods.

2) This report reflects the most up to date data available at the time the database is queried.

3) Counts may differ from those reported in previous periods due to system updates and post-adjudicative outcomes.

4) For a complete list of USCIS forms and descriptions, visit: <https://www.uscis.gov/forms>

5) Additional information on the reregistration periods can be found on the USCIS website here:

<https://www.uscis.gov/humanitarian/temporary-protected-status>

6) For reporting purposes, while reregistration periods have an end date, TPS applicants can file for registration after the end date. Due to this, counts may include applications filed after a reregistration period has ended. For example, while the first reregistration period for Honduras is from Dec. 15, 2017 to Feb. 13, 2018, any applications that USCIS receives prior to the second registration period for Honduras, which started on June 5, 2018, will be counted in the first reregistration period. Additional information on late reregistrations can be found on the USCIS website here: <https://www.uscis.gov/humanitarian/temporary-protected-status#Filing%20Late>

7) Percent of approvals and percent of denials was calculated by taking the total number of approvals or denials and dividing by the total receipts respectively.

8) Denials may include applications that were either denied, administrative closed, terminated, revoked or withdrawn.

9) All counts fewer than 10 and additionally any subtotals where the counts fewer than 10 can be surmised from the subtotal must be redacted in accordance with 8 U.S.C. 1367 privacy protections.

By: DHS, USCIS, Office of Performance and Quality; C3 Consolidated, ELIS, queried 05/2020,TRK #6064.

Source: USCIS, obtained by CLINIC via FOIA request Nov. 6, 2020.

E. TPS by Immigration Class and Status

TPS is not just for undocumented immigrants, but for all noncitizens in the United States who are not lawful permanent residents at the time of their country's designation. Thus many immigrants with a non-immigrant status can benefit from a TPS designation. This is the first time we have seen data to show the previous status of immigrants who eventually transitioned to TPS, let alone by country of birth. The data did not include a key for the nonimmigrant class codes, but many of them can be found on the USCIS website.⁵ Aside from the large number who are in some way unknown (Blank, UN, UU, or UNK) or who entered without inspection (EWI),

⁵ U.S. Citizenship and Immigration Services (USCIS), U.S. Dept. of Homeland Security (DHS), Nonimmigrant Classes of Admission, last updated Dec. 28, 2017, <https://www.dhs.gov/immigration-statistics/nonimmigrant/NonimmigrantCOA>.

the top overall categories of admission for eventual TPS holders are: TPS, F-1, AS, B-2, and PAR. TPS indicates that the applicant previously held TPS before applying again. An F-1 visa is an academic student visa. A B-2 visa is a “temporary visa for pleasure,” or a tourist visa. AS indicates an asylum applicant with work authorization. PAR indicates an immigrant who has been paroled into the United States for at least one year (non-Cuban or Haitian).

For a list of class codes, see <https://www.dhs.gov/immigration-statistics/nonimmigrant/NonimmigrantCOA>

- Represents zero or rounds to 0.0.

1) The number of new applications or petitions received and entered into a case-tracking system during the reporting period.

2) Duplicates were removed based on receipt number, A-Number, SSN, and Name-DOB combination.

3) Country is based on Country of Citizenship as of application.

4) TPS approvals for Northern Yemen are not reported as they have been removed from the designated country list.

5) Counts may include individuals that may have also been approved for legal permanent resident status.

6) Counts include approved individuals regardless of whether their validity date has expired.

7) Some applications or petitions approved or denied may have been received in previous reporting periods.

8) The report reflects the most up-to-date estimate available at the time the database is queried.

9) Counts may differ from other reports due to updated logic that utilizes more accurate SSN information.

By: DHS, USCIS, C3 and ELIS, queried Dec. 2019.

Source: USCIS, obtained by CLINIC via FOIA request Nov. 6, 2020.

(Data on file with authors: "TRK_5469_I821_TPS_Current_Bene_COC_Class_FIN")

Table 27 documents how many TPS holders went on to obtain lawful permanent residency (LPR) and/or U.S. citizen status.⁶ Historically, USCIS has included TPS holders who also have LPR in their total TPS counts and continues to do so (see accompanying notes to the above tables). However, it is only recently in 2018 that USCIS began to remove naturalized citizens from the total TPS count (according to the data notes included by USCIS in the FOIA release). The data below seems to support a more official path to citizenship for TPS holders. When permanent residency or citizenship is available to them, a large number of TPS holders adjust their status.

Table 27. Current and Former TPS Holders by Legal Status as of September 17, 2020

Country of Citizenship	TPS Only	Lawful Permanent Resident and TPS	Naturalized U.S. citizen, former TPS	Total
El Salvador	202,630	43,687	4,824	251,141
Haiti	41,962	13,152	1,830	56,944
Honduras	62,196	16,631	1,746	80,573
Nepal	10,628	4,007	217	14,852
